

# 2004 NFMS Simulated Mission

## Our Mission Statement

To better our knowledge of our nations space program and the terrestrial planet of Mars. The goals set before us are as follows:

- To broaden the horizons of our peers
- To value of cooperation under stress
- To share ideas and criticism freely
- The ways of creative problem solving
- Learning to develop prioritizing and scheduling skills
- Focusing on detail oriented tasks
- Offering others support and encouragement
- Working towards a common goal and as a team player
- To understand how much dedication and hard work goes into a project similar to this

We are determined to make this year's space mission the very best yet.
