

Non-Verbal Communications Test

5 Squares

Objective:

Five squares will facilitate Communication among your crew members. It will lead to a great deal of group cooperation and understanding that will be necessary to have a successful mission.

Directions:

You have a large envelope which contains five smaller envelopes, one for each person. The task is to form five squares so that each person has a square the same size. There must be **no** talking, pointing, or communicating, and the players must not ask for assistance or **take** pieces from others. The only action allowed is to **give** pieces to others by handing the pieces and establishing eye contact. It's important not to touch another person's puzzle except to receive pieces. The activity is over when each person has the same size square. This will be a timed activity. . .maximum 30 minutes.

Assessment:

Discuss feelings concerning the activity and its application to real life situations.
